# COOK'S GREAT ACCOUNT OF POLE QUEST.

## EXPLORER TELLS OF SUNNY DAYS IN ICE-BOUND NORTH.

### Begins His Wonderful Narrative of Dash Over Arctic Fields to Victory.

#### Gives Graphic Pictures of Life in the Land of Eternal Snow and Details of Plans He Made to Break Through Frozen Barriers and Reach World's Crown.

(BY DIRECT WIRE TO THE TIMES.)

**NEW YORK HERALD BUREAU.**  
Sept. 14.—(Exclusive Dispatch.)  
When Dr. Frederick A. Cook related to the Herald from Larkville, in the Shetland Islands, on Wednesday, September 1, the pulse-stirring announcement that after a prolonged fight against famine and frost, he had succeeded in reaching the North Pole, the public read with avidity every detail of his wonderful narrative of suffering and triumph. The Herald readers were proud that the explorer had found a new land, and that his story was enriched by the annals of his successful fight to the top of the world.

The Herald readers were proud that the explorer had found a new land, and that his story was enriched by the annals of his successful fight to the top of the world. The Herald readers were proud that the explorer had found a new land, and that his story was enriched by the annals of his successful fight to the top of the world. The Herald readers were proud that the explorer had found a new land, and that his story was enriched by the annals of his successful fight to the top of the world.

Group of Eskimos in Arctic Regions, such as Dr. Cook describes in great narrative that begins, exclusively in the Southwest, in The Times today.

It is worthy of note that Commander Peary's impressions of the pole were, like those of Dr. Cook, disappointing. There was nothing startling to be seen, nothing to stimulate enthusiasm; but they had reached the Boreal Center. When his story was made public through the Herald, the world thrilled by the narrative, hailed him as a discoverer.

**A TEST OF TRUTH.**  
But a few newspapers and partisans of another Arctic enterprise denied its truth, although they accept without question the equally marvelous story furnished later by Commander Robert E. Peary. These critics said no man could make fifteen miles a day beyond the eightieth parallel. But Commander Peary has done more than that.

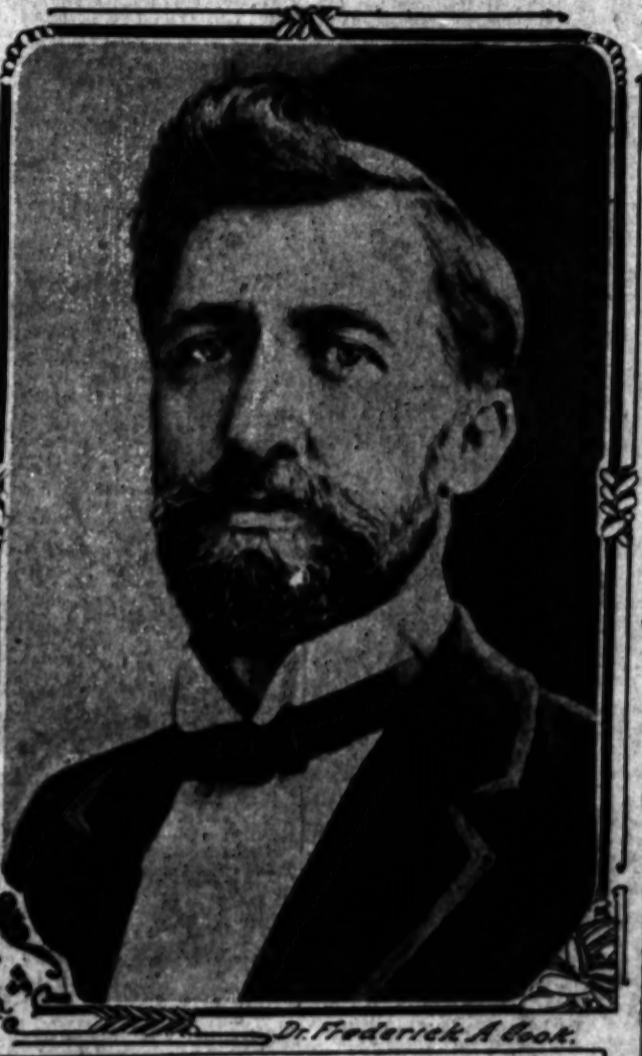

They scoffed at dancing horizons and mirages that turn things topsy-turvy. But Commander Peary makes corroborating allusion to the same curious atmospheric effects even in higher latitudes by the diffused light, which seemed to come from all directions at once.

Indeed, although the Herald is not partisan, its mission being to get the news and print it first, it cannot overlook the fact that Commander Peary, notwithstanding his protests and charges against Dr. Cook, confirms in many vital details the truth of the Brooklyn explorer's narrative.

Other critics have declared that Dr. Cook was unprepared, whereas facts furnished by his backer and sponsor, John B. Bradley, in July, 1905, show that the expedition was carefully planned and thoroughly equipped with dogs, sleds, pemmican and other necessities of Polar exploration.

With this brief summary, the Herald presents today the beginning of Dr. Cook's remarkable story of his conquest of the North, written while a prisoner in the snow and ice, and will continue its publication in chapters on alternate days, thus placing him before the world, which, in his case, is the jury that will decide upon his claim that he preceded Commander Peary to the Boreal Center, and is therefore the discoverer of the North Pole.

GIVES INTERESTING DETAILS OF TRIP TO POLE.

Dr. Frederick A. Cook.

Explorer and Map of Route he took through polar regions to apex of earth, his own account of which begins today in The Times exclusively in Southwest.

**"ENTENTE CORDIALE."**  
**J. P. MORGAN, JR., IN HARRIMAN'S PLACE.**  
Elected to Fill Vacancy in Directorate of National City Bank—Wall Street Regards Choice as Significant—Lovett Head of Espee.

**NEW YORK, Sept. 14.**—J. P. Morgan, Jr., was elected today to the place of E. H. Harriman in the National City Bank. By Wall Street the election is regarded as one of the most significant of the week's financial developments, presumably indicating that the Morgan and the Kuhn-Loeb-Standard Oil groups of financiers.

Added weight was given the event because it followed closely upon reports that the Morgan interests were about to take an active interest in governing the Harriman road, and that the younger Morgan was slated as the ultimate successor of Mr. Harriman in command of the Union and Southern Pacific systems. The National City Bank is controlled by the Kuhn-Loeb-Standard Oil interests, which yesterday assumed a commanding position for the time being, at least—in the Union Pacific Executive Committee.

## TO GET IN TOUCH.

### President Explains Need of Trip.

#### Believes It Will Make Him a More Efficient Chief Executive.

#### Tells Boston Chamber of Commerce How Nation Is Progressing.

#### Takes Rap at Gov. Johnson for Advocating Sectional Antagonism.

(ASSOCIATED PRESS NIGHT REPORT.)

**BOSTON, Sept. 14.**—President Taft, in addressing a banquet of the Boston Chamber of Commerce tonight, said he was going to take his western trip because he believed it would enable him to be a much more efficient President, and make him better acquainted with the needs of that great section.

He also outlined some of the matters to be submitted to the next Congress. "I am on the eve of beginning a journey of 12,000 miles in length, which will enable me to see tens and hundreds of thousands of my fellow-citizens, and enable them, I hope, to see me. Occasionally I hear a query, why I should start off on a trip such as this and 'what particular good does it do to anybody?'"

"Well, it certainly is not going to be a pleasure trip, although I shall enjoy it. It will involve much hard work and a great deal of mental effort to think of things to say and say them simply and clearly, so they can be understood."

"On the other hand, it certainly will give me a very much more accurate impression as to the views of the people in the sections which I visit. It will bring closely to me the needs of particular sections, so far as national legislation is concerned, and I believe it will make me a wiser man and a better public officer."

## THE PERSONAL TOUCH.

"I ought to be able to explain to the people some of the difficulties of government and some of the problems for solution from the standpoint of executive and the legislator, as distinguished from that of the honest, but irresponsible, critic. The personal touch between the people and the men to whom they temporarily delegate power, of course, conduces to a better understanding between them."

"This is the second week in September. We are all ending our vacations and going home. This is the time of year, rather than the first of the calendar year, when good resolutions ought to be made—and kept as far as possible."

"This is the time when, looking forward to the coming meeting of the Congress in December, one must consider the needs of the country so far as they may be relieved by Congressional legislation and attempt to state what that legislation should be."

## MONEY MATTERS.

"Our chairman has made some reference to the number of subjects to which the attention of Congress may well be directed. In the first place, there is the monetary situation. While it is probable that the Vreeland bill would aid us in case of another financial crash, it is certain that our banking and monetary system is a patched-up affair which satisfies nobody. And least of all those who are clear-headed and have a knowledge of what a financial system should be."

"The matter has been referred by Congress to a monetary commission, which has been studying the financial and banking systems of the great governments of Europe, and has embodied and will publish in interesting and attractive form the best accounts of the financial systems of the world."

"It is quite apparent from the statements of Mr. Vreeland, now the head of the Committee on Banking and Currency in the House, and from the conversations of Mr. Aldrich, chairman of the Monetary Commission and of the Finance Committee of the Senate, that the idea of the Monetary Commission is for some sort of arrangement for a central bank of issue which shall control the reserve and exercise a power to meet and control the casual stringency which from time to time will come in the circulating medium of the country and the world."

## TWO REQUIREMENTS.

"Mr. Aldrich states that there are two indispensable requirements in any plan involving a central bank of issue. The one is that the control of the monetary system shall be kept free from Wall-street influences and the other, that it shall not be manipulated for political purposes. These

if the weather is wet, squeegees, pile the material.

**ROLE OF THE CONTRACTOR.**

House refuse is collected by contract with the city, and the contractor employs two helpers in the employ of the city. Raggickers, generally women, overhaul the refuse on the sidewalk during the collections. The refuse is taken to the department before the collecting carts arrive. After the carts have passed, the gutters are street cleaning operations. Street dirt which can be shoveled is hauled away in carts; the rest is now removed by temporarily damming the gutter by means of coarse cloths. As the water advances, the gutters are scraped by the contractor picking up a large amount of dust and solid matter, which is carried into the street by the wind. The contractor's attendant army with a hand-sifted, stiff broom, who sweeps into the gutter such dirt as is visible from the sidewalk and from the street. The distance of eight or ten feet from the curb.

The principal cleaning which the streets receive is done by horse-propelled brooms, with bristles of split cane, which are capable of sweeping 717 1/2 square feet of street with the horse walking about 2.5 miles per hour, or an amount of sweeping equal to that of a man.

Horse-propelled squeegees are employed on asphalt and wood pavements. The squeegee is a machine resembling common road scrapers, with the scraping edge set like a machine room in an oblique direction to scrape the gutter. The squeegees and scrapers are useful in rainy weather and when the dirt on the streets can be scraped. The squeegee is a machine that is ready to be moved like mud. Softening by sprinkling, followed by squeegeeing, is the chief refuse operation. It is the chief reliance of the city in getting rid of fine dirt, which cannot be shoveled.

**AUTOMOBILE SWEEPERS.**

Experiments have been made with automobile sweepers and sprinklers of the type known as the "Sweeping Machine," which have proved to be economical than horse-propelled machines.

The sprinkling of streets is accomplished by means of hand carts with a capacity of forty to fifty gallons; by motor-propelled carts with a capacity of from 200 to 350 gallons; and by horse refuse is placed in boxes which the householders are required to provide, which are placed on the sidewalk in time for the early morning collection. The boxes are emptied by horted on the sidewalks by raggickers just before the arrival of the street cleaning carts. The raggickers are an institution in Paris and are probably the best organized and most efficient of the world of unofficial scavengers in the world.

A few minutes before the collecting carts arrive, the raggickers, clad in nondescript garb and wearing a hat, appear with much speed and system spread a square of burlap or canvas over the refuse. The contents of the refuse can over upon it. The contents are quickly overhauled, the household refuse is placed in the sacks. The refuse which is of no use to the picker is then dumped back into the street. The burlap is then taken to some neighboring side street, which serves as a kind of central depot, from which they are later hauled away by a contractor's horse-drawn borrows.

The carts for collecting the refuse are of the type known as the "Sweeping Machine," which are used for the common French custom, with two wheels and provision for horse harness. The carts are used by the contractor, each cart, one remaining on the side and the others throwing the refuse in to him to overturn and empty. Every day the contractor's carts, every desirable matter being placed in separate bags or baskets and the refuse is placed in the street. The refuse is hauled to boats and to depots on the outskirts of the city to be used as fertilizer.

**HOW ITS DONE IN BERLIN.**

Berlin, with an area of about twenty-five square miles and a population, of 1,800,000, is the largest city in Europe. It is the greatest manufacturing center on the continent, is very enterprising and to its present position of a model city administration is regarded as a model city.

The sanitary regeneration of Berlin dates from the purchase of extensive territory in the environs, in 1861, but it was not until the advent of the era of 1864-71 and the establishment of Berlin as the national capital that the city began to develop the institutions which now exist, and which are practically self-sustaining, were begun. The city has a large number of workmen and gasworks more than pay for themselves, and that the sewage disposal works bring in a considerable income. The city has a large number of operating expenses. Every department seems to be run nearly as well as those of the city, and the city is in accordance with the German idea of municipal administration.

The city has a large number of sanitary city in spite of, and not because of, natural conditions. Its situation is particularly unfavorable for drainage, and the city has a large number of water, sandy plain traversed by sluggish streams is required to supply the city with water. The city has a large number of water, sandy plain traversed by sluggish streams is required to supply the city with water. The city has a large number of water, sandy plain traversed by sluggish streams is required to supply the city with water.

Col. Griffith Will Tell His Experiences in State Prison at Meeting of the "Why Club."  
"Prison Reform and Convict Labor" will be the subject discussed at the meeting of the "Why Club" tomorrow evening. The principal speaker of the evening will be Col. Griffith J. Griffith, secretary and treasurer of the Prison Reform League, who spent two years in San Quentin prison.

**WOULD MUZZLE ALL THE CITY BOW-WOWS.**  
HAVING Muzzled all the factions that exist in the city about the dog pound, the City Council is now preparing to muzzle all the dogs, or, at least, it will if Dr. L. M. Powers, Health Officer, has his way.  
The fact that a horse bitten by a dog died of rabies Sunday has aroused the Health Officer, who appeared in the Council chamber yesterday with a draft of an ordinance requiring that all dogs be muzzled when at large on the streets or exposed places.

# THE PUBLIC SERVICE—In the Courts and Offices.

## SUMMARY OF THE DAY.

The Council yesterday received the petition of San Pedro temperance people asking a reduction in the number of saloons and promptly referred it to the Police Commission without recommendation.

An alleged attempt of K. Yamada, a Japanese, to deport his wife, was stricken by Judge Church yesterday. The woman was not allowed to depart from San Francisco on the steamer Chio Maru. She will be brought back to testify in her own behalf.

Ernest Grinton, a Sawtelle business man, is being tried by a jury in Judge House's court to determine the question of his sanity.

Health officers testified in Justice Williams' court yesterday that dirt from the city streets contains many more bacilli than does the dust blown from the country roads, when they were called by State Senator McCarthy in defense of the pure food law.

## AT THE CITY HALL.

### COUNCIL DODGES BOOZE ISSUE.

#### SAN PEDRO PETITION SENT TO POLICE COMMISSION.

Council Believes Administrative Body Has Full Power and Responsibility and Should Not Ask Legislative Body to Act Further as to License.

Your Uncle Aleck got the hot end of another "pass-the-buck" game yesterday when the Council received the petition from the San Pedro miners, asking a reduction of the liquor license and referred it without comment to the Police Commission.

Rev. J. C. Livingston, who headed the earlier ministerial delegation, told the Council after an hour's discussion, that the commission would grant the applications pending unless they heard to the contrary from the Council before September 23.

"Passing the buck to us again," said Councilman Lyon.

Councilman Tonkin promptly moved that the petition be sent to the Police Commission without comment, as he believed the question was one the commission could settle. Tonkin held that the Council had promised license to all the saloons in existence before the ordinance and that this promise should be kept. But as the subject was one wholly outside the jurisdiction of the police department he thought it ought to meet its own responsibilities.

All the other members thought except Wallace, who wanted a postponement until September 23, when the repeal of the ordinance permitting private saloons would be up for consideration.

The members before the Council were almost a repetition of those before the Police Commission Monday night. The same charges of double entendres and "pass-the-buck" were made and the same statements of fact repeated. The ministers insisted that they had been told by the City Attorney that the ordinance was temporary and only to prevent the saloons from being organized out of business because of prohibition and that the ordinance was prepared at the request of the Council solely that the saloons might be kept legally in existence after the election, and that it was not meant or understood to mean a promise that the same persons for the same number of places would be continued.

Besides Rev. Mr. Livingston and Rev. Mr. Kibben, Mr. J. C. Livingston appeared for the San Pedro temperance element, and urged the reduction of the number of saloons from the viewpoint of a moralist.

The termination of the discussion was so sudden and so unexpected that the temperance element will be cautious in its next steps, but it is likely another appeal will be made to the Council to reduce the number of saloons to at least 50.

## AQUEDUCT Y.M.C.A.

COUNCIL MAKES APPROPRIATION. An aqueduct department of the Y.M.C.A., established with funds from the city, is to be opened, and five men are to be put in charge of the work under the direction of the local organization. This was made known yesterday when the Council transferred \$1000 from the general expense fund to the Y.M.C.A. to finance the work. This means that a similar sum will be given each year for the next four to maintain the same work. Plans for it have long been made, but the Council would not make a commitment until the annual budget.

Two of the seven Councilmen present—Chambliss and Tonkin—were against the transfer, but the City Attorney held that only five votes were necessary. The other five voted in favor of the transfer. The latter said an adequate system for the drainage of the waters of the Garvanza Arroyo could not be made for less than \$100,000 and that the Council thought the owners of the tract might furnish the rest.

## POWER BONDS.

### SENT TO FINANCE COMMITTEE.

The request of the Board of Public Works for an issue of \$1,500,000 of power bonds for the aqueduct and authority to employ a board of expert engineers to investigate the power development of the aqueduct were referred by the Council yesterday to the Finance Committee for investigation. It is likely they will be held until the end of the month. The latter said an adequate system for the drainage of the waters of the Garvanza Arroyo could not be made for less than \$100,000 and that the Council thought the owners of the tract might furnish the rest.

## DANCE HALLS.

### SPECIAL ORDER NEXT TUESDAY.

The dance hall ordinance are to be the subject of special consideration at the Council meeting next Tuesday.

## THE CITY ATTORNEY HAD THEM READY YESTERDAY.

There are two ordinances, one regulating dancing academies and the other public dance halls. Two were deemed necessary to give the Police Commission full jurisdiction over the situation as it was feared that if those it is hoped the law will reach might escape by organizing as "academies."

F. H. Solomon, who heads the opposition to the ordinances, says any law passed will be invalid because the charter provides that when an ordinance is repealed under the operation of the referendum, as the dance hall ordinance was seven months ago, no other legislation on the subject may be passed without submission to the people. The City Attorney says there is nothing in the charter which would prevent the passage of the ordinance as he has prepared, even though the referendum was involved. The City Attorney says any new ordinance will also meet another referendum petition as well as resistance on the legal ground asserted by him.

## CITY HALL BRIEVES.

William Schade, city gas inspector, was given ten days' leave of absence by the Council yesterday and \$50 for expenses. The wonderful portion of the article was that Schade did not ask any money. He intends to visit gas plants in northern cities.

The Council settled the representation on petitions for the creation of park assessment districts from 25 per cent. of the property frontage to 35 per cent. This was done at the request of the Park Commission.

The Council settled the Gardenia police-district-street-formerly controversy by making T. A. McClain a combination official for the Manchester region and W. W. Dow for Gardenia.

The Mayor, the City Commissioner and the Fire Chief will visit San Pedro tomorrow to investigate the salt water fire which occurred at the Chief and San Pedro business men.

The petition of the Crane Company for a spur track across San Pedro street, between Second and Third streets, was denied by the Council because Mrs. Jesurun withdrew \$10 street represented the competing frontage.

## FIRST WHARF GRANTS.

Wharf franchise—the first ever granted by the Los Angeles Council—was granted to the Consolidated Lumber Company and W. T. Wheatley for the Wilmington Bay, yesterday. The franchise was granted to complete the program of sales to the beneficiaries by the Wilmington Board of Trustees. Just before consideration of the action was taken on the advice of the City Attorney, who explained that both occupied private property and would use the same for the same purpose. The franchise was granted to the Wilmington Board of Trustees and the United States government.

## CITY HALL BIDS.

The Council is to receive bids September 23 for the purchase by the city of a lot suitable for a City Hall site. The action was taken on motion of Healy, who said the Council ought to know the site of the new hall before action on the bids to buy the present site was acted on. The bids on the sale of the present site will be received next Tuesday.

## STREET CAR SMOKEING.

After listening to arguments for an hour why smoking by passengers should be prohibited on street cars, the Council yesterday deferred action until October 1, when the ordinance presented by the City Attorney.

## AT THE COURTHOUSE.

### HE PUT UP, BUT GOT NO KISS.

#### HUSBY, AGRIEVED, TELLS STORY IN COURT.

Infidelity of Couple Married in Holland Are Aired and Wife Says Husband Applied to Her a Name Which Called in Question Her Faithfulness—Neither Gets Decree.

Minna Roeg, who at the time of the hearing of her action against her husband, Maurice Roeg, for the latter to show cause why he should not allow her a tidy sum to prepare her case of divorce against him, failed to get a decree in Judge Crowe's court yesterday.

The husband also failed to get judgment on his cross-complaint, and when the decision had been announced by the court, both of the parties seemed to be equally satisfied with the result.

The wife alleged desertion, and the husband responded with a similar complaint. The court found that neither came into court with clean hands.

The Roegs were married in Amsterdam, Holland, in 1922, and they are the parents of three children, Rosetta, Louise and Herman. Both Roegs are now in Holland. The wife especially has but poor command of the English language.

It was alleged by the wife, who appeared like a handsome Dutch miss of perhaps 40, instead of the mother of three children, that she had been treated as herself, that Roeg had mistreated her all through their married life, and that he had been unfaithful to her. She said that she had called her a name that caused in question her chastity. He left her in January, 1935, and she has since then been living with her parents in Amsterdam.

Roeg told his story in an entertaining way, denying many of his wife's charges. "I sent her to Europe," he declared, "when she wanted to go with me to the depot to welcome her home she refused to kiss me, and this when I had given her the last money I had that she might make the trip. This was seven years ago."

The name of Eli Kayser, an old friend of the family in Amsterdam, was brought out in the testimony. He was a New York business man, who spent some time at the Roeg home when the family lived at Ocean Park. Roeg testified that all his troubles began with the introduction of Kayser into his family, but he did not charge his wife with any unfaithfulness. It was explained by the wife that Kayser had promised her a tidy sum in Holland to look after her if she were ever divorced, and that he was merely acting as her protector.

In the course of the testimony of Roeg, the wife became much excited and hissed, "It's a lie!" between her teeth, evidently not inclined to agree with her spouse in some of his statements. It was explained by the court to warn her that she must be quiet. She testified that she would never live with him again. Roeg told the court that he had asked her to return a number of times, and would be glad to make a home for her. The father has been keeping house by himself with his two sons at the Pico-Malibu apartment-house for some time. He is making her home with her mother.

## LEAVES IT TO JURY.

### TRYING GRINTON FOR SANITY.

For a third time an effort is being

## MEN OF AFFAIRS IN LOS ANGELES.

E. P. Clark, President Los Angeles-Pacific Railway Co.

## THE GIRL KIDNAPED HIM, IS ELOPER'S QUEER PLEA.

LOVE lost a preliminary skirmish with Law yesterday, when B. C. Frick and Lillie Evans were arrested as they left a San Diego train at La Grande station, and sent to separate prisons. But Dan Cupid was very busy all day and refused to be conquered. Frick declares he is anxious to marry the girl, which would solve all their difficulties. A discussion of the case was held at the court yesterday.

The two eloped from San Diego; or, according to Frick's story, Miss Evans kidnaped him, but he was a willing victim. He is only 19 years old, and consequently the case is a juvenile one. The two eloped from San Diego; or, according to Frick's story, Miss Evans kidnaped him, but he was a willing victim. He is only 19 years old, and consequently the case is a juvenile one. The two eloped from San Diego; or, according to Frick's story, Miss Evans kidnaped him, but he was a willing victim. He is only 19 years old, and consequently the case is a juvenile one.

Frick was formerly a lieutenant in the German navy, he said, in the City Jail yesterday. He inherited some money about eighteen months ago and decided to quit the sea and visit America. In New York City he became acquainted with the family of E. W. Scripps of San Diego, and was engaged as a tutor for the younger children.

Six months ago Frick was offered a position as advertising manager of the Hotel Robinson. He accepted it and turned over to Dr. George W. Campbell, who was his superior, a list of real estate investments. He declares his uncle is one of the largest stockholders in the San Diego Brewing Company.

As Frick and his uncle strolled along the city streets of the southern city Saturday the former noticed two pretty girls making purchases. They smiled at him. Thinking they were acquaintances, he excused himself from his uncle and went in to meet them.

They begged my pardon and said I looked like a fool, he said. He said yesterday. They gave their names as Edith and Nellie Evans. They were English girls. Edith was made to ascertain the mental condition of Ernest Grinton, a Sawtelle merchant, whose father, James C. Grinton, has filed a complaint, alleging that the son is insane.

The son, who is 33, was pronounced insane by a lunacy commission and Judge Wilbur. The matter was then turned over to Dr. George W. Campbell, for his opinion. He reported that Grinton was of sound mind and disposing memory. Now a jury in Judge House's court is trying to settle a point upon which the experts have disagreed.

Ernest Grinton is a Canadian, and in his earlier years was a member of baseball, football, and other athletic organizations in the province of Ontario. The Grinton family has been in Los Angeles since 1903. For several months after the complaint, as the father testified yesterday, Ernest was too addicted to buying in large quantities and trusting goods to everybody who designed credit. It was stated that while the father was in the hospital, Ernest attempted to poison his father by placing strychnine in the tea and butter, and the father was made to cease his prosecution of the case. Ernest and his brother, Walter, offer to go to British Columbia, and remain away from their parents the balance of their days. But the father, who is a sturdy Scotchman, refuses all overtures for peace.

## JUDGE JAMES SICK.

### MUST REST SEVERAL DAYS.

The indisposition that attacked Judge James C. Sick yesterday afternoon, compelling him to return to his home, is not as transitory as was hoped. It is being announced yesterday that he is suffering from a severe cold, and that by order of his physician he will not be able to attend to public business during the remainder of the week. This condition demoralized the divorce calendar in Department One. It has been arranged, however, that during the illness of Judge Sick some of the most pressing cases will be heard by other judges. There will be a delay of two or three days, however, and they must be default actions that can be speedily disposed of.

Yesterday of looking after the divorce calendar, disposing of two cases, Judge Church of Fresno, who will assist, and Judge Crowe of Santa Barbara, who will begin the hearing of the case in Department Twelve Friday, in the absence of Judge Davis, will lend a hand. But, unless there is special need of immediate

## COURTHOUSE NOTES.

### STOCKHOLDERS' LIABILITY.

Thomas P. Converse has brought an action in the Superior Court seeking to enforce the stockholders' liability law against H. E. Carre, Mabel Carre, Guy L. Hardison, Eugene Overton and R. W. McClure Granger, to collect a note calling for \$3000, alleged to be due from the Hardison-Carre Company.

### INCORPORATIONS.

Articles of incorporation were filed yesterday by the Seeling California Traffic Bureau; capital stock, \$25,000; incorporators, Woods R. Woolf, Eugene R. Rogers, C. H. Herbert, L. M. Golding and George S. Pickrel; amount subscribed, \$2000. Glambastians Fuel and Feed Company; capital stock, \$100,000; incorporators, Egisto Glambastiana, Alfredo Glambastiana, Ernest T. Murray, Giovanni Fassi and Byron M. Marble; amount subscribed, \$500. The Mothers' Fund by Mrs. Baker P. Lee, Miss Mary E. Loring, Miss Esther H. Parsons, Mrs. Jefferson D. Gibbs, Mrs. W. H. Workman, Mrs. W. A. Varcoe, Mrs. Tom P. Robertson, Mrs. G. D. Huddy, Mrs. A. H. Hamblin, Mrs. John R. Matthews, Glendora Heights Orange and Lemon Growers' Association, Mrs. H. H. Huddy, Mrs. W. J. D. Huddy, Mrs. J. Mandeville and Foster Elliott. Los Angeles Portland and China Manufacturing Company; capital stock, \$100,000; incorporators, John Kriale, L. D. Brodie, Charles H. Jay, Joseph Kirkham and J. H. McKnight; amount subscribed, \$1. Anne Oil Company; capital stock, \$10,000; incorporators, L. W. Zeigler, J. A. Adams and G. R. Smith; amount subscribed, \$25.

### DAMAGES ASKED.

Orin A. Pierce entered suit against the Los Angeles Railway yesterday, asking \$20,000 damages on account of injuries received by her run down while on a motorcycle on Main street between Fourteenth and Fifteenth, May 28 last.

### RELATIVES GET ESTATES.

By the will of Fred A. Shute property valued at \$2700 is left to the wife, Minnie Shute, who was the exception of the estate of \$5 each to the children, Sidney, Bertram and Winifred Shute. Marie M. Bowman leaves \$1000 worth of real estate to her husband, Andrew W. Bowman.

### PETITION FOR PROBATE.

Ann E. Garrett filed a petition yesterday asking for the probate of the will of Benjamin F. Garrett, who died a few days ago. The estate is valued at \$20,000. It consists of a twenty-acre orange grove and ten shares of the Covina National Bank, with some other real and personal property. The heirs are the widow, and Francis J. Barnard of Upper Alton, Ill., and John M. Garrett of Overbrook, Kan.

### BUILDING RESTRICTION.

Roderick Mackay has brought an action against Charlotte Faller, seeking to restrain them from violating a building restriction contained in the will of J. Marion Brooks. The house in question is located on Twelfth street and is being erected within twenty feet from the front of the lot line.

### SEEK TO RECOVER.

B. Lombard and E. C. Jones are defendants in an action instituted by C. P. Blakemore to recover \$1750, alleged to be due as commission on the sale of land in Tulare county.

### SETTLED OUT OF COURT.

The damage suit brought by Charity Lee against the Pacific Electric Railway Company to recover \$5000, by reason of injuries received in Pasadena, June 2, 1935, was settled yesterday. The matter having been settled out of court, the plaintiff was injured while alighting from a car.

### POSTPONED.

The beginning of the trial of the action against W. K. Carlson, co-defendant in the action against the Pacific Electric Railway Company, involving alleged embezzlement and false entries, looked to begin before Judge Crowe this morning. The postponement is on account of the death of the father-in-law of the defendant, M. A. Fetter, who occurred at the Carlson home, No. 243 Budlong street. The brother-in-law of Carlson, Francisco J. Fetter, who is the son of the defendant, is also lying ill at the Sisters' Hospital, and another postponement may be necessary on that account. The witnesses in the other cases against Carlson in Justice Ling's court have been ordered to report October 1.

### ABRAMS PLEADS.

M. C. Abrams, the chauffeur charged with manslaughter in the killing of Isaac P. Lowman, July 2, pleaded not guilty yesterday and his trial was fixed for December 11. The case of Lee B. Warren, who was charged with stealing a lot of jewelry from Betty Harris at the Long Beach bath-house, was continued until the new year for a preliminary hearing. The plaintiff was injured while alighting from a car.

### CRIMINAL CASES.

Thomas Galvin, charged with grand larceny, withdrew his plea of not guilty before Judge Crowe yesterday and entered a plea of guilty. He will be sentenced tomorrow. He has asked that he be allowed probation. A. E. Warrington and W. C. Carpenter, facing a complaint of forging a mortgage with intent to swindle Robert Little of Pasadena, were given until Saturday to plead. C. Gonzales pleaded guilty to burglarizing the home of R. Munoz, July 22, and through his attorney filed an application for probation. His partner, F. Rodriguez, who was arrested on a similar charge, was released from custody on the recommendation of the District Attorney.

### NEW JURY READY.

In Judge Hervey's court the new term trial jury was empaneled and sworn. The body is now ready for the transaction of public business. All sorts of excuses were furnished for not serving. One man was busy in the evening business (although winter is close at hand), another was in the midst of a harvest, another was in the midst of a walnut gathering, a third was a French subject and had never been naturalized, and a few were excused because the reasons were good, but the court held that jury duty is something that no good citizen should seek to avoid.

### THE INTERIOR COURTS.

#### Four Men Found Guilty of Having Violated Pure Food Law—Druggists Made Defendants.

The health office was practically transferred to Justice Williams' court yesterday.

(Continued on Third Page.)

## Jevne's Best Blend Coffee

Blended to meet the approval of the most cultured tastes. Exclusive in aroma—delicious in flavor. See it.

Where prices are low for cafe quality.

Make Your Coffee a Universal Perk.

The percolator way is the ideal, the making coffee. It brings out the flavor of the coffee—no boiling water—and robs it of any possible bitterness. You can regulate the strength of your taste when you percolate Jevne's.

The Universal is to our mind the best on the market. It is made of polished imported enamel with aluminum trim and is constructed that no steam escapes, and over-boiling is impossible. The aluminum style comes in designs—\$2.50 to \$5.00.

The imported Enamelware styles range at \$2.50 to \$4.00.

We also have a large variety of colorators, with Alcohol Lamp.

**THE PUBLIC SERVICE.**  
(Continued From Second Page.)

Yesterday. The purpose was to show, in several pure food cases on trial, how much worse city dust is than country dust for human beings. Dr. L. M. Peters, Health Officer, and a corps of assistants, testified to this effect.

State Senator McCartney was present to secure the enforcement of the pure food act. The fact was established that the longer germs stay on the outside of fruit the less becomes the danger, as the sunlight kills them. If they get inside the fruit, they multiply and thrive.

The experts did not venture an opinion as to whether flies carry more disease germs in the city than they do in the country. The pure food law requires merchants to keep fruit and berries protected from dirt and flies.

W. W. Smith, proprietor of the fruit department of the Palace Market, at 200 South Spring street, was found guilty of violation of the law and will be sentenced today.

For similar offenses E. F. Zaiser, C. S. Martin and M. Zukerman were fined \$5 each. Zukerman's fine was suspended.

**Crusade Against Poison Men.**  
As a result of a crusade against violators of the drug laws, conducted by Inspector E. C. McKinnis, twenty-four complaints were filed in Justice Williams' court yesterday. The defendants will probably be arraigned today.

The offenses charged are having opium without being licensed pharmacists and having placed unlicensed druggists in charge of stores. The persons named in the complaints include H. L. Anson, F. Smith, R. C. Thomas, D. McCarron, O. A. Kaiser, C. W. Logan, M. H. R. Gest, S. G. Orr, W. T. Sim, W. W. Marsh, A. M. Sim, A. A. Heinemann, Thomas Taylor, C. H. Christensen, H. Kaidorff, S. S. Rogers, George Gilkey, Blair Hills, L. Riley, H. E. Valentine and George Newman.

**Sell Improper Pictures.**  
Fifteen post card dealers admitted to Justice Chambers yesterday that they had sold pictures that were injurious to public morals. They were allowed to escape with small fines on their promise to strictly ensure their wares in the future.

The offenders and their fines follow: T. J. Moran, \$5; J. A. Penburg, \$20; G. W. W. Williams, \$5; H. B. Pools, \$5; J. P. Logan, \$5; H. R. Gest, \$5; G. Orr, \$5; W. T. Sim, \$5; W. W. Marsh, \$5; A. M. Sim, \$5; A. A. Heinemann, \$5; Thomas Taylor, \$5; C. H. Christensen, \$5; H. Kaidorff, \$5; S. S. Rogers, \$5; George Gilkey, \$5; Blair Hills, \$5; L. Riley, \$5; H. E. Valentine, \$5; and George Newman, \$5.

**Denies Wife's Story.**  
J. W. Burford, a mining engineer, denied the story of his former wife that he is following her, is untrue. "I don't care to ever see the woman again," he told the City Prosecutor yesterday. "I never have had any intention of harming her."

Mrs. Burford did not appear to a complaint against her husband.

**Cigar Clerk Fined.**  
William Johnson, a clerk at the Waldorf cigar stand, was fined \$10 by Justice Williams yesterday, for having disturbed the peace Saturday night, by fighting with H. K. Fish. He said he got into the trouble by attempting to keep Mrs. Fish from quarreling with a Japanese boy.

**Pays for Speed.**  
F. W. Butler paid a fine of \$25 to Justice Williams' court yesterday, for having exceeded the speed limit, while driving his auto.

**MANY GO TO NIGHT SCHOOL.**

**Los Angeles in Front Rank in This Respect.**

**Course Includes Manual Training for Boys.**

**Attendance Now Includes Many Girls.**

Expansion along the line of evening schools is taking place in the Los Angeles school department. It is the opinion of the superintendent's office that no department of a city educational system is of greater practical utility than its evening schools, reaching as they do, those children who otherwise would not receive the training which is their due.

On Monday evening Los Angeles proved herself in the first rank of cities in this respect by opening five evening schools, one of them a high school.

The elementary evening schools are located thus: One at Olive-street school, which ran last year; one at Castelar-street school, one at Utah-street school, and one at Fourteenth-street school. The total enrollment on opening night was about 200, which number has since nearly doubled.

The evening school at Utah street will supply the demand of the foreign element, which has been clamoring at the doors of the school board asking for the education of foreigners. These foreigners are chiefly Russians, who apparently, believe that the day is made for toll, the night for study. This school will, of course, emphasize the teaching of English. The one at Fourteenth street supplies evening educational advantages to a section which has furnished many candidates for such education.

**OLDER STUDENTS, TOO.**  
Any one over 14 years of age, either male or female, is eligible for enrollment. Interesting in former years have been some of the older members of classes, including, at one time, a Scotchman 60 years of age, who had never learned to read or write, and an ancient colored woman, who was studying typewriting.

The course of study will be practically the same as last year, including some manual training work for boys. At present the course does not meet the requirements of evening students with the greatest precision, but both the master and the method of teaching are being modified to meet these requirements; there is more of the individual system of teaching, and the practice of teacher and pupil working out the educational problem together, instead of requiring the pupil to struggle by himself. This is the more necessary because the young people are many times wearied with the day's work, and personal sympathy and encouragement are demanded if the best results are to be obtained.

So many pupils of the evening schools are foreign young men and women, well educated in their own languages, but deficient in English, that it is the aim of the department to so modify the course as to include more and more reading, writing, spelling—and also to include instruction in civics, that the youthful foreigner may gain an idea of our government and political institutions.

The athletic apparatus put in last year at Olive-street evening school was extremely popular with the boys, affording a play opportunity which was very beneficial to youngsters doomed to work all day and study all evening.

**INCREASED ATTENDANCE.**  
Last year the average attendance at Olive-street evening school was increased from 80 per cent. to 85 per cent.—a high average for an evening school. The average attendance at that school was about 200.

While formerly it was a rare sight to see a girl in the evening school, last year there was an increasing number of girls in attendance, and an even greater demand for admission was made by girls on opening night this year.

The evening high school opened last night with an enrollment of 120 and there are as many more applicants yet in sight. The course of study is somewhat extended over that of last year, in the amount of work required, and the number of evenings to be devoted to each subject. The curriculum is an interesting index of the practical demands of the young men and women of today, and is comprehensive in every way in English, languages and especially the commercial course.

**G. Pluma, Direct Importer of Italian Olive Oil.** Cases, Macaroni, etc. Wholesale and retail. 600 San Fernando st.

**PULLS FOR RIVER BED.**

**Boyle Heights Improvement Body Urges Prosecution of Scheme for Beautifying.**

The Boyle Heights Improvement Association is making good progress in its work and is succeeding in getting many substantial improvements for that part of the city. At the last meeting twenty-five new members were taken into the association.

Several new sprinkling wagons have been promised for the streets of Boyle Heights, and several streets have been sprinkled with oil.

A committee is making preparations for a big entertainment to be given on October 8 to which all of the other improvement associations of the city will be invited.

The matter of the improvement of the Los Angeles River bed was discussed at some length and a resolution was adopted requesting the representatives to the Federated Association to use every effort to have this improvement brought about as soon as possible.

**PERSONAL.**

George E. Hartman, a wealthy manufacturer of Chicago, is at the Alexandria.

Carus D. Smith, an oil man of Bakerville, is at the Holienbeck.

H. R. Steben of Douglas, Ariz., a wealthy ranchman of that section, is spending a few days at the Alexandria.

C. W. Whitelaw, an attorney of St. Louis, is registered at the Alexandria. Mr. Whitelaw is accompanied by his wife. They are touring the West after a trip around the world.

Brooke Rawles, a retired capitalist of Philadelphia, arrived at the Van Nuys yesterday, accompanied by his wife. They are touring the West after a trip through the Orient.

Frank H. Chalmers of Chicago, a grain merchant, is at the Hayward. He will remain here several days before rejoining her tour of the Western States.

Simon H. Levens, a wealthy mining man of Mexico City, is at the Lankorshim. Mr. Levens is accompanied by his wife and family. They leave today for British Columbia, where they will visit relatives.

E. H. Dunn of Pasadena, a director of the new Pacific Steamship Company, left last night for Inyo county, to inspect the company's quarries. He had planned the trip for Monday, but was stricken with heart trouble on the street.

ROGERS-JANES IN THE FINALS.

Los Angeles Youth Also to Meet Strachan.

Miss Sutton to Play Miss Hazel Hotchkiss.

Sutton-Freeman Combination Loses in Doubles.

DEL MONTE WINS TO THE TITLES.

DEL MONTE, Sept. 14.—(Exclusive Dispatch.) As the result of today's play only three matches will be contested to complete the tennis championships at Del Monte, and these will be held tomorrow as follows: Men's singles, George Jones and C. Rogers; women's singles, Miss Florence Sutton and Miss Hazel Hotchkiss; junior singles, John Strachan and Charles Rogers.

The semi-finals in the singles between Miss Myer and Miss Sutton proved a desperate contest. Miss Sutton early in the first set secured a commanding lead and when the score stood 4-2 in her favor seemed to have the match well in hand, but Miss Myer, as usual playing a stubborn, uphill game, hung in and eventually turned the tide in her favor and reached even terms with her opponent, 4-4. Here the crucial moment came in a game which wavered back and forth and lasted almost as long as an ordinary set. It finally went to Miss Myer and she also won the next game. This gave her the first set by a score of 6-4.

In the second set Miss Sutton again led at 4-2 and again Miss Myer forced the score to 4-4, but was unable to complete the win and lost the set by a score of 6-4. Throughout these two sets the points were won and lost for the most part on long stretches of keep lobbing interspersed with frequent line drives to the sides and corners, but by the time the third set had been reached the hard work and the hot sun had robbed the players of their speed and that time on a play-long game was played by both women. Each carefully placed the ball near the center of her opponent's court as at the end of the second set, Miss Sutton clearly proved her superiority, winning the set and match by the score of 6-4, and this gave her the match.

MIXED DOUBLES.

The championship finals in mixed doubles was a great match. Miss Florence Sutton and L. Freeman lost to Miss Hazel Hotchkiss and Dr. Hays by the score of 6-4, 4-4. This contest developed the fastest work of the day. Miss Sutton and Mr. Freeman put up a stubborn defense against the smashing and driving game of their opponents and were themselves forced into faster game in order to keep it. In each set they forced their way out of a bad score to even terms, but the southern team seemed always to have a little in reserve and was in straight sets.

The championship final in the junior doubles was a hard one between John Strachan and John Johnston of the Golden Gate against Charles Rogers and C. Herd of Southern California. The latter team won after four sets, 6-4, 4-6, 6-4, 6-4, during which each of the four players showed clever and interesting tennis, but at the end of the match there might have been about the value of the new blood which will be required to augment the ranks of the championship class.

The most sensational tennis of the day occurred in the semi-finals of the singles. Junior champion John Strachan defeated Clifton Herd of Pasadena. The midday player of the Golden Gate, as expected, lost the first set, but contrary to all the "dope," put his stout little heart into the work and won the next two sets, the total score being 6-4, 6-4, 6-4. This last Herd, is no easy game himself. He is only a youth, but heavy fast ball, nice backhand, and a good deal of speed and action in his play. He has had only one year's experience, but he has all the strokes and has them well. All in all, he would seem to be the most promising junior north or south on the Coast.

Summary.

Ladies' singles—Miss F. Sutton beat Miss G. Myer, 6-7, 6-4, 6-4; Miss L. Hotchkiss beat Miss A. Brower, 6-4, 6-1, and 6-4.

AMERICAN WIN ALL.

CLEAR SWEEP IN SINGLES.

(Associated Press Wire Report.)

PHILADELPHIA, Sept. 14.—America today made a clean sweep of the Davis cup lawn tennis series at the Germantown Cricket Club, W. A. Larned defeating J. C. Fackler, 6-3, 6-4, 6-4.

W. J. Clothier beating C. P. Dixon, 6-4, 6-1, and 6-4.

These events, with those of the double matches yesterday, and the two other singles last Saturday, give America five wins to none for England.

The doubles was the only hotly-contested match, the Englishmen failing to win a set in the singles.

In the Parks-Larned match, superior steadiness and accuracy of the American champion were noteworthy.

Parks' service was ineffective.

The Clothier-Dixon match was another one-man affair, the American outplaying the Englishman at every point.

The series has been disappointing because of the weak resistance made by the victors in the singles, but a strong fight in the final set, but failed to maintain the pace.

Pennsylvania has now six points and Harvard four on the championship.

Intercollegiate doubles, final—Larned and Clothier, Pennsylvania, defeated Rogers and Herd, Harvard, 6-4, 6-2, 6-3.

COLLEGIATE TENNIS.

PENNY WINS IN DOUBLES.

(Associated Press Wire Report.)

PHILADELPHIA, Sept. 14.—The University of Pennsylvania won the intercollegiate tennis championship in doubles today on the courts of the Merion Cricket Club, defeating Harvard in the final round in three straight sets.

Walter F. Johnson and A. D. Thayer were opposed by G. P. Gardner and E. Swetser, who made a strong fight in the final set, but failed to maintain the pace.

Pennsylvania has now six points and Harvard four on the championship.

Intercollegiate doubles, final—Larned and Clothier, Pennsylvania, defeated Rogers and Herd, Harvard, 6-4, 6-2, 6-3.

Commodore C. G. Conn, and world's record swordfish, taken at Catalina, Sept. 12, with rod and reel. The fish weighed 339 pounds and was brought to gaff in 18 min. It measured 11 feet in length. Capt. G. Farnsworth, boatman, is on the left.

COMMODORE CONN TO CATCH SPECIMEN OF EVERY FISH.

(Special Correspondence of the Times.)

AT VALON, Sept. 14.—(Not until I have captured a fish of every variety along the Pacific Coast weighing under 400 pounds, with rod and reel, do I intend to allow my enthusiasm to tire of deep-sea fishing.)

For this remarkable angling feat Mr. Conn will probably be the recipient of several handsome prizes held in trust by the Catalina Tuna Club for anglers catching record fish. The swordfish caught by Mr. Conn beat the record catch made recently by Mr. Murphy by 150 pounds. The fight lasted one hour and twenty-seven minutes. The fish measured eleven feet in length. Across the tail the width was four feet. Seated in the tender of the cruise, Nevada, Mr. Conn for the last three months has fished daily in the waters around the channel islands for record fish. Trolling from morning till night, his enthusiasm apparently knows no limits. Sunshine or storms do not dampen his ardor. With a plentiful supply of bait for catching fish and a good supply of provisions aboard the cruiser, he makes trips around the islands which sometimes lasts for several days.

Fishing for big game fish is a costly pastime unless one is thoroughly versed in all the various habits of the quarry. In a remarkably short time an angler can ruin tackle worth several hundred dollars. The diving, doubling and crossing of a monster fish attached to a slender line gives the angler many opportunities to watch movements seen in no other kind of sport. From the time of the strike the tension upon the line seldom varies. Judicious pumping will invariably bring the monster to the surface.

Generally, sinking is not one of the characteristics of a sport fish. Once a fish takes a hook it is the angler's business to master all its efforts to rid itself of the hook. Through the battle, the angler must be able to manage the fish as he may appear to others, the angler's nerves are generally "strung to the top-notch."

FERRIS GETS BUSY.

(Exclusive Dispatch.)

PHILADELPHIA, Sept. 14.—(Exclusive Dispatch.) Ad Wolgast easily beat Joe Galligan of Chicago in a three-round bout here tonight. No decision was allowed, but Wolgast was the aggressor at all times and hit Galligan at will. The Chicagoan was not in good condition and he suffered from the lefts that Wolgast sent to the body and jaw. In the third round he was swinging wildly in attempts to land on Ad Wolgast meets Peter Savits here Wednesday night.

Physicians Prevent Bout.

PHILADELPHIA, Sept. 14.—(Exclusive Dispatch.) Morris Harris could not get by the examining physicians at the West End Athletic Club tonight, so Al Kubiak, who was carded to meet him, offered to box any three men in the house. As the three could not be produced, the club substituted Joe Seiger of Denver and Tommy Cary of this city in the wind-up. This was a good slugging match and ended in a draw.

NEAT CARD FOR MONDAY NIGHT.

FOUR BOUTS SCHEDULED FOR NAUD JUNCTION.

Fight Bugs. Awaiting With Some Interest the Coming Battle Between Couter and Gene Sullivan, Which Will Be Local Boy's First Appearance in Ring Here.

Manager McCarey of the Pacific Athletic Club has completed his card for next Monday evening at Naud Junction, and it will consist of three ten-round bouts and one six-round bout. The first bout will be between Couter and Gene Sullivan, which will be local boy's first appearance in ring here.

The Monday card is as follows: Sam Couter and Gene Sullivan, 120 pounds at 8 o'clock; ten rounds. Dan Sullivan and Arthur Collins, 120 pounds at 9 o'clock; ten rounds. Charles Norvel and Jimmy Brady, 120 pounds at 10 o'clock; ten rounds.

The side-tracking of the Norvel-Brady bout has given Dan Sullivan a chance to break into the limelight, and the fans will see one of the best athletes on the Coast in the ring when he faces Collins in their ten-round bout.

Sullivan believes that Gene will give him a fight, but he is sure that his assertions will have to go for sweet success. Sullivan is a good boxer, but he makes in this encounter will determine to a great extent what his future will be in the Los Angeles ring.

Norvel is being put on with Jimmy Brady, who is a tough young fighter, who is anxious to make good in the lightweight division. Brady's only appearance in the city was against Norman Stone, but he showed the Coast fans what he was capable of doing when he beat a fighter of his own weight, Norvel came to Los Angeles at his own expense to show the Coast fans what he was capable of doing when he beat a fighter of his own weight.

Sam Couter will begin active training today at the pavilion, and now that he is in the ring, he will appear to better advantage than at Venice, where he was not certain he could go the long route. Now that he is assured of his staying qualities he will have no hesitancy in going after Sullivan from the top.

Doyle's camp at Vernon, with his brother Dan, and is showing up well in his preliminary workout.

COFFROTH DISGUISED.

KETCHUM MUST SUSTAIN.

(BY WIRE TO THE TIMES.)

SAN FRANCISCO, Sept. 14.—(Exclusive Dispatch.) Fight promoter James Coffroth has become so angered by Manager William Britz's delay that he has wired Britz the ultimatum that if he does not have Ketchum here by September 21 he will call off the Ketchum-Johnson match.

As Ketchum boxes Langford on the 21st.

# CLEANING OFF SCRIP FILINGS.

McKITTICK TO BE FREED OF  
BENSON-HYDE WORK.

Land Office Gave Sixty Days to  
Show Cause Why Locations Should  
Not Be Cancelled Without More  
Proceedings—Gypsum Patents Are  
Still Being Issued.

Progress is at last being made in  
clearing McKittick oil lands of the  
scrip locations placed on them by the  
Benson-Hyde people in 1919, which  
have been held in abeyance ever since,  
while the government has been prosecut-  
ing Benson and Hyde for other  
land deals. Much of the land is cov-  
ered with producing wells; other parts  
are considered probably oil-bearing.

Two months ago a field expert of  
the United States Geological Survey  
went over the ground and claimed it  
is a mineral land. On his report, the  
General Land Office ordered a notice  
published in the Scripps Register re-  
quiring them within sixty days to show  
why their filings should not be can-  
celled without further hearing. It is  
considered certain that there will be  
no opposition from them and J. M.  
Danniger, attorney for the oil men,  
anticipates early cancellation. The  
Oil Company obtained a final  
hearing and decision some months ago.  
The first case was that of the Mc-  
Kittick and Jackson companies and  
some of the Jameson lands. No scrip  
was placed in the West side Kern  
field outside of McKittick.

Nothing more is being heard of the  
alleged report of Special Agent Lange  
against the McKittick company for  
gypsum and oil popularity known as  
gypsum locations. Since it is alleged  
to have been made, some patents have  
been issued under such locations.

E. J. Bonst has withdrawn his op-  
position to the issue of patents on the  
southeast corner of the McKittick  
which he asserted that proper work  
had not been done. His protest was  
made after the final record had been  
issued by the Visalia Land Office, and  
he was ordered to put his allegations  
in affidavit form. This he failed to do.

Refinery Is Sold.

The Murphy Oil Company has just  
sold the Los Angeles refinery to the  
Los Angeles Refining Company, of  
which George H. Gillies is vice-presi-  
dent and general manager. Mr. Gil-  
lies has had the plant in operation  
for a long time, and before that it  
was in charge for the Murphy. The  
company also operates the California  
Refinery under a lease.

Straitened Heals.

The Hammer Oil Company, sitting on  
a 1-1/2 acre tract northwest of  
Shagman, in the well started by the  
late "Lucky" Baldwin and associates,  
got a good flow of oil. It is said  
a month ago, but as the hole was drilled  
crooked, was unable to finish at that  
time. It has at last been straightened  
and will put down 1000 feet of  
eight-inch casing. H. A. Unruh, man-  
ager of the Baldwin estate, is presi-  
dent of the Hammer.

Lady Washington Goes on.

The Lady Washington, that has been  
sinking two months for Los Angeles,  
has succeeded in getting the obstruction  
out and will continue into the oil sand  
with a six-inch casing, after having  
landed the eight-inch.

Imperial at Coalings.

Interest is taken in the Imperial  
progress in the extreme north of Cal-  
ifornia, where it has lately suspended  
work on all except its No. 1, which is  
down 3500 feet and in brown shale,  
with no oil to date. Success there will  
extend the East Side field a mile north.

Review of Oil.

Allen G. Nichols, superintendent of  
the Temple Ranch Oil Company, and  
editor of the Oil Industry, has pub-  
lished a book on "Oil, An Historical  
Review of the Oil Industry." He cov-  
ers the history of petroleum  
from the earliest times to the present  
and in all parts of the world. Nearly  
100 pages are devoted to California,  
and each field is dealt with separately.  
Chapters are given to refining,  
oil roads and asphalt making, oil  
fuel in the navy and merchant marine.

OCEAN PARK.

OCEAN PARK, Sept. 14.—The St.  
Marks mission, which was recently put  
out of business by reason of the re-  
fusal of the Trustees to grant it a  
license, has renewed its application.  
This time it is sought to have the mis-  
sion located on Zephyr avenue. The  
hearing of the petition was deferred  
for one week.

Frutless search continued to be  
made throughout the day for the body  
of Attorney Henry of Los Angeles,  
who met his death in the surf Sun-  
day afternoon. The shore current is  
now running toward the south, and  
when the body is found, as it is doubt-  
ful it will be in a few days, the suppo-  
sition is that it will wash ashore in the  
vicinity of Playa del Rey, unless the  
Venice pier should chance to interrupt  
the natural course.

The City Trustees met in special  
session tonight to investigate charges  
against Police Marshal Farrent by Deputy  
Marshal Nettleton. Farrent is serving  
as Chief of Police, under a city ordi-  
nance, and was accused of having used  
language unbecoming an officer and a  
gentleman.

Antiquity of Star and Crescent.

No matter what happens in Con-  
stantinople, the star and crescent is  
likely to remain the emblem of the  
metropolis on the Bosphorus to a remote  
future. It is not a Turkish emblem.  
Constantine, emperors of the Turk at  
that spot by more than eleven cen-  
turies. The emblem is older than Con-  
stantine. Long before the Roman Em-  
peror set up his eastern capital there  
and renamed the town for himself the  
Byzantians were besieged by a neigh-  
boring enemy who, one night, tried to  
storm the place under cover of darkness.  
As they advanced a cloud rolled  
away, revealing the conjunction of the  
planet Venus with the new moon,  
which is one of the most beautiful phe-  
nomena of the nocturnal sky. The light  
exposed the skulking invaders, the  
walls were manned and the enemy  
driven back. From that moment the  
star and crescent became the emblem  
of Byzantium. It couldn't have a bet-  
ter one.—(St. Louis Republic.)

Was Puffed Up.

"I was in the town where you were  
born the other day," said Quibby to  
the eminent author, "and I heard you  
were still standing."  
"Yes, a quaint old place, isn't it?"  
corrected the author.  
"Rather! And while I was there a  
friend of mine pointed out the house  
where you were born!"  
"Is it possible? I did not think the  
building was still standing."  
"My word, yes! Why, do you know,  
the township recently had a handsome  
tablet placed on the side of the old  
place."  
"You don't say so?" exclaimed the  
gratified author. "A tablet on the house  
to which I was born? Well, well! New  
York is certainly most handsome of  
them. By the way—do you happen to  
recollect the words of that famous  
"Perfectly, my dear fellow," an-  
swered Quibby. "It says 'High street.'"  
—(Discharge.)

## OUR EBBEL SHOES

are popular among  
fashionable women  
because of their in-  
dividuality of style.

All our odd lines included. You'll  
find every kind here—from less ex-  
pensive packing trunks to Hartman's  
fine wardrobe trunks. 600 in the lot.

# September Drug Sale

## Hamburger Drugs Are Pure

Here, as in all other departments, Hamburger's are pre-eminently a quality store—and no-  
where is this more important than in Drugs and Toilet Preparations of all varieties. We  
manufacture a great many of our own preparations, 'way up on our sixth floor, far above  
the noise and dust, away from all chance of interruption, distraction, and consequent errors  
for our chemists. Prices are the very lowest compatible with the best of ingredients.  
Beyond and below that we will not cut. We will not sacrifice purity or dependability for  
the sake of quoting seemingly the lowest prices. Ours are guaranteed superior drugs.

## WOMEN'S STOCKINGS

GIGANTIC SALE OF FOUR THOUSAND PAIRS

A choice lot bought by our Paris office in anticipation of the  
raise in tariff. The values are astounding. Your choice of  
silk hosiery in black and every wanted color; plain hosiery in  
colors; hosiery with white split soles; embroidered ankle stock-  
ings, and many yards with split soles. All have reinforced  
heels and toes. You've never seen equal values.

## Long Coat Sweaters, a A Big Showing of Fall Styles in All

Among the most popular is the coat sweater. One of the smartest  
seen is a 40-inch length, made close fitting, in novelty shell weaves  
and white edged with light blue. Made on splendid lines, exactly  
tailored garment.

NOW'S THE TIME TO BUY THEM. COME WEDNESDAY

## Handsomely Tailored Suits

An Overwhelming Stock Awaits Your Selection

There are more suits sold at this price than above or below it.  
We have devoted more thought and time to the selection of appropriate  
we can truthfully say ours are better values than can be found  
anywhere. Our enormous outlet gives us a buying power not equalled  
anywhere. This, together with our profits and volume of business, is the principal reason for the  
offered in these superb Autumn suits at \$35. They have 50 and 52 inch  
plated skirts. Man-tailored throughout on beautiful lines. They are  
guaranteed satin or silk serge. We couldn't begin to give you the  
materials or colorings. All the new ones are here. A choice line of  
staple blacks.

## Other Suits at \$15.00 and Up to

## Tailored Waists at \$2

THEY'RE PROMISED GREAT POPULARITY

Plain effects will prevail, says Dame Fashion—mostly severely  
lined by plaits front and back. Those most in demand are of  
linen, in white, and white with hairline stripes or plaid. Many  
Some are finished in a charming way with neat hand-embroidered  
collars.

It's a Fascinating Collection You Must Not Miss

## RED TAFFETA SILK PETTICOATS \$2.95

THE BARGAIN OF THE SEASON IN "PETTICOAT LANE"
